REMOVAL.

DR. DE LOOMIS, Surgeon Dentist, Chicago, Illinois, would tender his thanks to the citizens of Chicago and vicinity for the liberal patronage he has received from them, and would inform those who have not called on him, that he has removed to No. 74 Lake street, over the Jewelry Store of Messrs. Hale & Brother, where he will be happy to wait upon all who may favor him with a call. Dr. DE LOOMIS would also call the attention of the public to his method of inserting Artificial Teeth, which he considers superior to any other now in use. He will warrant all work done by him to be of the best quality, and to give satisfaction to the wearer, or no charge will be made. Dr. DE LOOMIS would also say that he has had considerable experience in the treatment of diseases of the mouth, and that he is prepared to perform all operations upon the teeth, and to treat all diseases of the mouth, in a manner that he hopes will meet the approbation of those who may favor him with their patronage. Chicago, Nov. 1, 1852. nov1

DENTISTRY.

DR. C. H. QUINLAN has this day associated with him in the practice of Dentistry, Dr. DAVID BLOCK, late of Boston, Mass., and will continue the practice of Dentistry in all its various branches at the old stand, No. 120 Lake street, Chicago. Dr. Q. has had the benefit of the latest improvements in the practice of Dentistry, and is prepared to perform all operations upon the teeth, so that the whole is one entire piece, smooth as a china plate, and will last for life. Dr. Q. will also insert Artificial Teeth on Gold Plates, which will be found superior to any other in use. He will also attend to the extraction of teeth, and to all diseases of the mouth. Dr. Q. has had a full course of instruction from Dr. Taylor, of Cincinnati, a gentleman who has done much to improve the profession. Chicago, 120 Lake Street. 1y1

DAILY TRIBUNE.

E. W. STUART, Commercial and Local Editor.

CHICAGO, SATURDAY, DECEMBER 25, '58.

LOCAL MATTERS.

Our Patrons.

We call the attention of the public, that we are ready to do all kinds of JOB PRINTING at a short notice. Our orders for it continually come and business is on the increase of late.

☞ Our Advertisers will confer a favor by giving immediate notice at the Counting Room of the office of every omission on the part of the Carriers to deliver their papers. This is the only way to insure the delivery of their paper.

A Fine Day for Printers.

No paper will be issued from our office this afternoon or Monday morning. There are four holidays in the year for Printers and Editors, and we are happy to say that this is one of them. If any news of special importance should "turn up" before the regular issue of Monday afternoon's Tribune, we shall distribute an Extra to all our subscribers as a Christmas gift.

The Union Press-Room

We are at last able to announce to our friends that the Press-room which we have established in connection with our regular issue of the Democratic Press is complete. Our beautiful Adams Press and splendid Hoe's Cylinder are now running, and already busily employed on the newspaper and book "forms" of the city. We invite our friends, one and all, to call and see them at any time during next week, between the hours of one and five P. M. We venture to say to the Ladies that they cannot fail to be interested in the quiet, elegant, gentlemanly bearing of our "Adams" and "Hoe." If any of our lady friends desire an introduction, they will do us the favor to call at our Editorial Rooms, where they will be furnished with as good an escort as "circumstances will allow."

Our Printing.

We take the liberty of saying to business men, merchants, Railroad Agents, Bankers (regular and irregular,) Land Agents, Booksellers, Lawyers, and all who wish anything put in print as near perfection in legibility, tastefulness and ornament as the art of Typography can display, that the Tribune Job Office, 51 Clark street, is the place for them to call. The running of our new Presses and the additional quantity and variety of our job type warrants us in saying that no office in the city or in this region of country can surpass us in the way of Job Printing. We are ready to meet any orders for handbills, notices, programmes, tabloids, circulars, bills of labor, school and business circulars, bills of lading, programmes, bill heads, law and commercial blanks, badges, by-laws, law cases, shipping receipts, insurance policies, &c., &c.

Our Freedom.

"Possession is nine-tenths of the law." So is a good freeman nine-tenths of good Printing, as every one acquainted with the business well knows. You may get your catalogue, bill, card, or whatever you wish printed in the neatest, fanciest type that T. White & Co., of New York, can furnish, and you may put the "form" into the best Press that Adams can make, and yet without a good Freeman "its of no use." It is therefore a pleasing satisfaction that we succeeded last fall in engaging the services of A. R. Case, a Freeman of the first water. We spent two months of time that was money to us in search of a Freeman that would suit. New York city satties was hunted over, together with the States of Connecticut and Massachusetts. A good Freeman is a rare article in this country, the demand far exceeding the supply. We commanded the highest wages paid to mechanics. The only one whom we found at the East equal to P. Case asked us $20 a week! We do not wish to disparage the mechanics in this line of business in our city, but we must say in justice to Mr. Case, and that our patrons may understand the real value of this Printing, we are ready to do, that he is the first good Freeman who ever came to this city, and that it will be a long while before this city will be allured to Chicago away from the high prices of New York and Boston. Mr. Case has had the entire charge of the fitting up of our Press Room and the setting up of the Press. We will only add that the Adams Press resembles exactly the one on which the American Bible Society print their splendid Quarto Bibles, and we would not exchange Mr. Case for their Foreman. From this, our patrons can judge of the quality of the work we are prepared to execute. We will only add that Messrs. Hoe of New York has nearly completed a second Cylinder Press which will run off job work to a charm. And yet we are barely keeping up with the demands of this growing art.

Expeditious Travellers to New York.

From the Agent of the New York and Erie Railroad we learn that by leaving Chicago by the Southern Michigan Road for Cleveland, passengers will arrive there in time for the express train to Dunkirk, then continuing with the morning train by the Erie Road he will arrive in N. York in three days. Arrangements will be completed in two or three weeks, by which the trains will be able to accomplish the trip in fifty hours.

Gone on Scouts.

Gone on Scouts.—Our neighbor Mr. Scripps, the editor of the Democratic Press, has received a legacy of not less than $100,000 from an uncle who has just died at St. Louis. He left (the fortunate nephew we mean,) yesterday morning for St. Louis in order to receive the "pile" that awaits him. Mr. Scripps was one needed with the Tribune for several years while it was "neutral in politics." He is one of the best editors of the west, of liberal education, gentlemanly bearing and uncomprising perseverance, and writes in a facile readable style that is popular with many. We sincerely congratulate him on his good luck. We hope his prosperity will not spoil the editor; we are sure it will not kept the man. It is not so easy, however, to write on a full purse as on empty one. But Mr. Scripps may be sure that we shall always treat him just as well as if he were not $100,000 richer than we.

A CARD.

The Ladies of Chicago who have attended the very interesting Lectures on Anatomy and Physiology, recently delivered in the Clark street Methodist Church by Mrs. H. Mareham, take pleasure in expressing their high appreciation of the pleasing and agreeable manner in which the subjects connected with the course have been presented, and in view of the great importance of having a correct knowledge of the laws of life and health disseminated among the females of our land, they would most cordially commend the course of instruction given by Mrs. M. to all who regard a vigorous physical constitution as a concomitant of happiness.

Mrs. Markham is an eminent degree endowed with the polish and refinement of a perfect lady, with the scientific research of a thorough student and scholar. She is evidently a philanthropist of the highest order, seeking the well-being, physical, moral and intellectual of her sex. We cannot but express the hope that in every part of the country Mrs. M. may visit, and may receive that attention which her qualifications as a lecturer, and the vast importance of the subjects themselves demand.

Mrs. Markham's Class.

Mr. Mann's Lectures.

The course of lectures by the Hon. Horace Mann, before the Young Men's Association, commences on Monday evening next at Tremont Hall. While we congratulate the Association on the annual having secured the services of Mr. Mann, we would earnestly urge upon our citizens the importance of attending, if possible, the whole course. Mr. Mann is undoubtedly, one of the ablest lecturers of the age, and as a writer and speaker he stands pre-eminent.

Lectures on Pure Eloquence.—The lecture of Professor Emerson before the Young Men's Association on Tuesday evening was listened to by a large and interested audience. An abstract of the lecture in by necessity adjourned over to our next issue.

Hose Pin at the Union Passage.—The nicest lot of pens in real estate is and about Chicago during the fair year, and indeed during the last seven months has been enormous. Drop in with cash in hand are plenty. Eastern capitalists are sending out their funds in abundance.—Those who want to purchase at reasonable rates must "speak quick." One of our neighbors sold his "quick" piece of property about two months from the centre of the city, at $1800 an acre, on "usual terms"—one quarter cash, the rest in one two and three years, interest payable in advance. A half acre adjoining this tract was sold a year ago for $400.

Passports, Accurate.—At Lasalle there is an inclined plane nine hundred feet in length, for the purpose of bringing the goods from the canal to the level of the Railroad. Freight cars of the largest size are then brought down alongside of the boats, and then drawn up by a steam engine at the top. The other day one of these cars became detached near the top of the grade, and, having on board an Irishman. The immediate consequence was a vivid illustration of the working of a fundamental mechanical power, the inclined plane. The ssubsiste consequence was at starting an instance of a great battle nature, viz: fast-coast velocity. The remote result was a grand leap of the car over three canal boats, head-set into the river. A crowd collected from the top to ascertain the finale, and the wherefore some of the Irishman.

A stranger headed them, and when nearly at the bottom of the grade he met a man coming up, and with the little breath left him, he gaspingly asked, "Where's that man that was in the car?" "Faith, and I'm he," was the reply. "No! no!" said the stranger, "that man that went down in that car there just now!" "Yes, faith, and sure, and be Jabers, it's me that same man, and sure, and bythow-ly Paul, sany way, I've lost me hat." The crowd ensembled to hold up, sit down and go at it, and when we last heard they had not got through shaking with laughter.

☞ Rev. J. M. Davis will preach to young men to-morrow evening in Warner's Hall. Subject, "It is always safe to do right." Those who heard Mr. Davis last spring, in which he will fail to attend. Preaching also at half past 3 o'clock P. M. in the same place as usual.

☞ Elder Cooley, of Ohio, will preach at the Disciples Church, corner of Wells and Lake street, on Saturday evening, the 25th inst., at 7 o'clock, and Sunday morning at 10 o'clock A. M., and 3½ P. M., and 7 in the evening

Temperance Meeting.—The regular monthly meeting of the Sunday School Temperance Society will be held to-morrow afternoon at 4 o'clock, in the basement of the Tabernacle Baptist Church, (W. D). Members of the different schools, and all friends of the cause are respect fully invited to attend.

Crowded out.—The usual "Summary of Religious Items" and "Saturday Evening Readings" published on Saturday, has been crowded out by the amount of other matter requiring publication. The articles with special reference to Christmas take their place.

☞ The Printers of this office acknowledge the receipt, through the kindness of the Proprietors, of a splendid supper, served up in excellent style, at a late hour last evening. May they spend many a "Merry Christmas" among us, and never want for a "Printer's Supper," even if there is no "pi" to be found.

PROSPECTUS

OF THE

CHICAGO DAILY TRIBUNE.

The Publishers of The Tribune deem it not inappropriate, at the approach of the New Year, to make a brief statement of their purposes and plans.

1. The first essential of a good Daily consists in its being a Newspaper. News—accurate, reliable, and served fresh, is the life-blood. The furnishing its Readers with the latest and best information of such of the manifold changes, incidents and developments of the day, throughout the world, as are of special interest to the people of Chicago and the West, will be the leading characteristic of The Tribune.

2. The next in order of discussion of those principles which underlie all facts, is also as essential of a good public journal. In this Christian land, based upon the Bible, the spirit of the Truth and the Right. Established on an independent foundation, it will seek to maintain the position by the full expression of liberals, yet decided opinions. It will defend whatever it regards as lawful, just and sound, and discountenance all that is false, factitious and fraudulent.

3. For the efficient carrying out of its design, The Tribune is arranged in eight Departments, to each of which a competent and responsible editor is wholly devoted. Of these, the Commercial Department is under the exclusive charge, as always, of T. A. Sheahan, Esq., one of the founders of The Tribune, whose established reputation throughout the West, as a Commercial Editor, saves the necessity of commendation. The Literary Department, edited by a Lady, has been added lately for the sake of making The Tribune a welcome visitor to the Home Circle, as well as to the counting room and the office.

4. Arrangements are making, and nearly completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and the Continent. The Tribune's corps of Letter-Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.

5. The Tribune will support a system of national policy that shall defend our honor abroad and maintain our rights at home. It will advocate a discriminating Protective Tariff; Harbor and River Improvements; the donation of the Public Lands to actual settlers; the solution of agitating Foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the People, so far as possible, on all questions of policy, and peaceful, and the leaving the South to bear the heavy burdens and heavier responsibilities of its peculiar institution, without unfriendly interference by the North for its removal, or aid from the national government, for its extension.

To hope of a high destiny for this Land of Freedom is founded on the Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereigns, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in the West as the great arena.

The CHICAGO DAILY TRIBUNE is published every morning and evening (Sunday excepted) at the Tribune Building, No. 51 Clark street, next door South of the Post Office.

Terms of Subscription: Morning Edition—1 year (in advance) $8.00. For week (payable to Carriers) 15 cts. Single numbers 1 ct. 10 copies to one address, $65.00. 20 copies to one address, $120.00. Evening Edition—1 year (in advance) $5.00. For week (payable to Carriers) 10 cts. Single numbers, 1 cent.

The Morning Edition is printed on a large folio sheet containing 56 columns. The Evening Edition contains all the reading matter of the morning, on a smaller sheet.

The CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one or two story each week, and all editorial Home articles, and furnishes more reading than the large double sheet of the New York Weekly Tribune. It is published every Friday, at the low price of $2.00 a year in advance. Ten copies to one address, $15.00. Twenty copies, $30.00, with one extra copy to the Member of the Club.

HENRY FOWLER & CO.

CRAVATS, SCARFS, TIES, GLOVES, &c.

CRAVATS, SCARFS, TIES, GLOVES, &c.

which they will offer at prices to suit the times.

No. 140 Lake street, and corner Lake and Wells streets.

HOME DEPARTMENT.

Christmas Reminders.

In the world-wide enjoyment of Christmas and the universal cessation of business and labor, there seems to be a literal as well as spiritual fulfilment of the prophecy contained in the song of the angelic host, "Peace on earth, and good will to men." There is a peculiar appropriateness in the physical custom of giving gifts which could exist only with "peace in all our borders and "good will"—a generous and thoughtful kindness towards all in the circle of our friends or of our charities. The choice collection of Christmas gifts, useful and ornamental, displayed in our shops, are doubtless a temptation to unrelenting donors, who, in the excitement of the season's kindliness of feeling, purchase expensive knick-knacks for children or friends, which please for the passing hour, and then are thrown aside. The blessed charity that "begins at home," and then, diffusive like the bountiful air, embraces the whole world of human hearts and wants, may well find this a fit time for administering to the poor and neglected. I have heard of one lady in this city, (perhaps there are more,) who, before to-day the poor families under her peculiar charge, to come to her house to partake of refreshments and receive such useful presents as she has prepared for them. Such charity is twice blessed—to those who give and those who receive—for personal knowledge and conversation inspires a living, hearty sympathy, which in its turn is reflected in a self-respect and encouragement, which is a better gain to the poor than many gifts. Such almsgiving would add interest to the day, without interfering with the accustomed family festivities

Christmas Carol.

BY MRS. HAWAS.

O lovely voices of the sky
That hymned the Saviour's birth
Are ye not singing still on high?
Ye that sang "Peace on earth,"
To us yet speak the strains,
When night is dayegone by.
Where night is dayegone by.
To bless the Syrian's plain
To bless the Syrian's plain
O voices of the sky!

O clear and shining light, whose beams
That hour bestow a glory shed
Around the palms, and o'er the streams
And on the shepherds' head;
Be near, through life and death
As in that holiest night
Of Hope, and Joy, and Faith,
O clear and shining light!

O star which led to Him, whose love
Brought down the ransom from
Where art thou?—midst the hosts above
Why we still gaze on thee?—
In heaven thou art for ever set,
Thy rays earth might not dim—
Send them to guide us yet?
O star which led to Him?

COMMERCIAL.

CHICAGO MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, Saturday Evening, Dec. 24—7 P. M.

The receipts of produce, especially wheat, have been larger since our last than for several days previous, and while the sales are in better supply, the warehouses are the better for it. The receipts of pork have somewhat fallen off, owing to the approach of the Holidays, and the same is the case with provisions generally. We quote sales and state of market as follows:

WHEAT—20 bu sold on spring, from teams, for cash; 10,000 bush at 75c delivered on spring. In store, 10,000 bush, 1d on 75c; 25,000 do at 75c; 10,000 do at 74c; 5,000 do at 73c; and 5,000 do at 72c, all on spring, at close.

CORN—There is more offering. Prices nominally unchanged for old shelled: 32@33 for new in ear.

OATS—More offering, and sales to warehouse and retail dealers at 30@34.

Rye and Barley quiet and nominal.

FLOUR—The market is heavy, and we notice sales of 1½ in various lots, at $5.60@5.75—the range of wheats being from 150 to 200 lbs, and the latter ranging accordingly. The market is very heavy, however, as packers have all temporarily withdrawn from the market. The amount on hand, and on sale at the depot, is about out of which the larger portion are

BUTTER—The market remains very heavy, and favors buyers. There is considerable offering, but sales are small, and limited to retail dealers, at 17@19 for fresh and roll.

Eggs also very heavy, and market drooping. We hear of sales at 18 cents per doz.

CHEESE—Supply fair, and market firm. Small sales of W. and Hamborgh at 10@10½ and 11@12.

POULTRY—Chickens have declined somewhat, and are selling at 11@15 each. Turkeys and prairie chickens without change.

POTATOES—There is considerable inquiry, and provision dealers offer 45c for fair qualities.

The market, in other matters, is very quiet and without change.

ANOTHER CASE OF FEVER AND AGUE CURED.—A few days ago, we received an astonishing case of Fever and Ague by the use of Dr. M'Lane's Liver Pills. We have now another to announce, that of Mr. James Harper, of Madisonville, who states that he had labored under a severe severe attack of Ague and Fever, as I was soon restored to health by the use of Dr. M'Lane's Liver Pills, and since then, I have not had the slightest return of the disease. I have recommended others to use them, and they have done the same. I have no hesitation in saying that I have never found any medicine that I have ever used, so effectual in curing disease as Dr. M'Lane's Liver Pills.

I have examined Mr. G. Schnuck' Glasses and believe they are well calculated to assist the sight. I have used them for such as have occasion to use them.

Professor Materia Medica, &c., JOHN MILLER, M. D., Rush Medical College.

I hereby certify that I am now using a pair of Mr. Schnuck's Glasses, and find them to be the best I have ever used. I have no hesitation in saying that I have ever used.

DR. J. E. HOLLISTER, M. D.

I am fully of the opinion, from careful examination and a trial of Mr. Schnuck's Glasses, that they are well calculated to accomplish the object designed them, than any now before the public. I have used them for the last twelve months.

Professor of Physiology, &c., W. B. HERRICK, M. D., Rush Medical College.

In offering my testimony, let me first say in the light of several years' experience, that I have used the Glasses of Mr. G. Schnuck, and I find them to be the best I have ever used, and cordially recommend them to the public. I have used them for a short period of time. I think they are of an excellent quality, and well calculated to assist the sight.

Professor of Physical Diagnosis, &c., E. S. DUNSTER, M. D., Rush Medical College.

The best recommendation I can give the Glasses of Mr. Schnuck, is the fact that I have used them for the last twelve months.

Professor of Anatomy, University of Illinois.

Having made trial of Mr. Schnuck' Patent Spectacles, I am free to say that they are well calculated to assist the sight, and I have no hesitation in recommending them superior to any I have ever used. I have used them for a short time, and find them to suit my eyes perfectly. I can recommend them to all who are afflicted in the same way.

Professor of Pathology and Materia Medica, Geneva, Ind.

I certify cheerfully, as far as my judgment goes, in the selection of Spectacles, that Mr. G. Schnuck is entitled to the confidence of the community. I have used Mr. Schnuck's Glasses for the last twelve months, and find them to be well calculated to assist the sight, and I can recommend them to all who are afflicted in the same way.

Professor of Surgery, Geneva, Ind.

Having examined the spectacles of Mr. Schnuck, I am free to say that I have used them for the last twelve months, and find them to be well calculated to assist the sight, and I can recommend them to all who are afflicted in the same way.

Professor Professor of Surgery, Rush Med. College.

Having examined the spectacles of Mr. Schnuck, I am free to say that I have used them for the last twelve months, and find them to be well calculated to assist the sight, and I can recommend them to all who are afflicted in the same way.

Professor of Surgery, Rush Med. College.

FOR A SHORT TIME ONLY.

SPECTACLES &c., ground on the celebrated Scientific Principles of DR. SOLOMONS, the celebrated Optician, from the Optical Institute of Dr. Solomons, No. 122 Old Bond st., London—established more than a century ago.

DR. SOLOMONS, the sole inventor of a Improved Spectacles, and various improved lenses, is now on a professional visit to this place, and may be consulted at his office, over Hart & Hoppin's, Lake st.

As he had the honor of attending the above named principal invalids in the United Kingdom, where he has experienced the most flattering encouragement—and having been for many years engaged in the study of the Optics, in the manufacture of the best Spectacles, and having had the most extended assortment of his newly invented and improved Spectacles, both in the superior and inferior classes, that persons having indistinct or weak eyes, may hesitantly be relieved by a resource, that will restore them to the use of preserving the precious organ of sight to the most advanced period of life, with the greatest facility and pleasure, and to recommend the most reliable, comprehensive and original of time, and at long prices than those of the Opticians in the United States have proved: their choice, his entire confidence, and his unbounded success, in the most difficult cases of vision and imperfection of sight, and the most extraordinary cures, that the combination shall be wanting, on the part of the public, to secure the services of DR. SOLOMONS, the advantage possessed by him of long practice in the Optical Institute of London, and the great facility of which he has obtained a thorough knowledge of the disorders of vision, and the most approved method of treating them, and of rare, correcting the highest imperfections of appreciation.

☞ We will give references to persons in the United States who have purchased spectacles of Dr. Solomons, and who are highly pleased with his skill and improved spectacles.

Consultation Free.

The Round Concentrator is an extraordinary, powerful, and newly-invented lens, which will relieve the most severe cases of deafness, entirely different in make or construction from any other instrument ever before offered to the public, and can be produced. They are the first ever offered to the public, and can be produced. They are the first ever offered to the public, and can be produced. They are the first ever
